

WOMEN EMPOWERMENT POLICY

Women empowerment and gender equality are crucial prerequisites for the upliftment and progress of our nation. The Women Development Cell (WDC) in the college is dedicated to promoting gender equality within the campus and fostering self-esteem and confidence among female students. The fundamental objective of the cell is to raise awareness among students about their social and constitutional rights and responsibilities, as well as to prevent any form of exploitation based on gender. The cell comprises faculty members and students from the college who collaborate with the aim of creating a gender-sensitive community within the campus and society at large. The WDC organizes diverse academic, technical, medical, cultural, and social events to empower women and raise awareness about the significance of gender equality in society. These initiatives are primarily driven by college students, who actively participate in spreading the message of gender equality and working towards the upliftment of women.

VISION

“Mold and empower the young minds and guide them to grow into a better human being.”

OBJECTIVES

- ❖ To create an environment that enables women to realize their full potential and perform at their best.
- ❖ Creating awareness about the importance of gender equality.
- ❖ To encourage the female students to become self-reliant and economically independent.
- ❖ To instill positive self-esteem and confidence in female students.
- ❖ To promote overall well-being of female students in the college.
- ❖ To create awareness about health and hygiene among female students.
- ❖ To create legal awareness among women by providing information about women welfare laws.

The cell works towards fostering an inclusive and supportive atmosphere where women can thrive and excel in various spheres of life. By promoting equal opportunities, providing necessary support, and encouraging personal and professional growth, the WDC aims to empower women to reach their maximum potential and make significant contributions to society.

The cell actively engages in raising awareness among students and the broader community about the need for equal rights and opportunities for all genders. The cell provides guidance, resources, and support to help women develop the necessary skills and knowledge for financial independence. Through workshops, seminars, and skill-building programs, the WDC empowers female students to explore diverse career opportunities, develop entrepreneurial skills, and pursue economic independence.
