Subject: Request for Actions Taken Based on Alumni Feedback Analysis 2022-2023

Respected Sir,

I am writing to present our Action Taken Report on Alumni Feedback Analysis for the Academic Year 2022-2023. This report outlines the relevant actions we have implemented in response to the feedback collected from our alumni, aimed at enhancing the educational experience and aligning with industry demands.

However, the survey also highlighted some areas needing immediate attention. Specifically, we identified the following critical actions :

1. Closer alignment of the curriculum with industry requirements.
2. Enhanced resources and guidance for self-learning.
3. Improved ICT training and communication skills development.
4. Better support for time and resource management.
5. Increased opportunities for practical training and internships.

We believe that these proactive actions will significantly enhance our student's professional development and support their success in the workforce.

Warm regards,

Salman A.K
