Subject: Feedback from Employers Regarding Alumni Performance

Respected Sir,

I am writing to share the feedback we received from employers concerning the performance of our alumni who are currently employed within their organizations following a recent survey conducted during the 2022-2023 period.

The response was largely positive, with many employers rating our graduates' competencies and performance as "Excellent." Strengths identified include their contributions to organizational goals, teamwork, and effective problem-solving skills.

However, the survey also highlighted some areas needing immediate attention. Specifically, we identified the following critical actions :

1. **Enhanced Training Programs**
2. **Mentorship and Guidance**
3. **Creativity and Brainstorming Workshops**
4. **Problem-Solving and Resilience Training**
5. **Continuous Feedback Mechanism**

We believe that these proactive actions will significantly enhance our student's professional development and support their success in the workforce.

Warm regards,

Salman A.K
