Subject: Feedback from Employers Regarding our Alumni Performance during the 2021-22

Respected Sir,

I am writing to share the feedback we received from employers concerning the performance of our alumni who are currently employed within their organizations following a recent survey conducted during the 2021-2022 period.

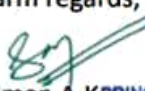

The response was largely positive, with many employers rating our graduates' competencies and performance as "Excellent." Strengths identified include their contributions to organizational goals, teamwork, and effective problem-solving skills.

However, the survey also highlighted some areas needing immediate attention. Specifically, we identified the following critical actions :

1. Establishment of a Curriculum Review Committee
2. Workshops and Training Programs
3. Mentorship Programs
4. Surveys and Assessments

We believe that these proactive actions will significantly enhance our student's professional development and support their success in the workforce.

Warm regards,

Salman A.K. PRINCIPAL
