

ACTION TAKEN REPORT ON FEEDBACK 2023-24

This report addresses actions taken in response to feedback from students, teachers, employers, and alumni in 2023–2024. We seek to meet academic and institutional ambiance by addressing areas for development in order to increase the quality of education and establish a favorable learning environment. These acts demonstrate our dedication to quality, which benefits all parties involved and advances success as a whole. Provide additional resources, tutoring, and interactive platforms to support students with average or below-average comprehension, ensuring academic success for all.

1. Focus on critical thinking, problem-solving, communication, and technical skills through workshops, practical training, etc.
2. Enhance the quality certificate courses to ensure they effectively boost students' competencies and employability, encouraging greater participation.
3. Offer more seminars, workshops, and industrial visits to promote creativity, higher-order thinking, and practical insights, benefiting students and faculty.
4. Provide access to resources, technical support, and professional development opportunities for faculty, enhancing their teaching capabilities and professional growth.
5. Maintain and improve campus cleanliness, infrastructure, greenery, and recreational facilities to create a welcoming, eco-friendly, and conducive learning atmosphere.
6. Enhance students' problem-solving, leadership, and teamwork skills through comprehensive training for industry and employer preparedness.
