

STUDENTS FEEDBACK ANALYSIS REPORT 2024-25

This Student Feedback Analysis Report assesses the academic and institutional experiences of 726 students at our college for the 2024-25 academic year. The report examines perceptions of curriculum effectiveness, evaluation processes, classroom communication, and opportunities for supplementary learning. Key findings reveal that many students believe the syllabus enhances their academic knowledge and value the effectiveness of internal evaluations. Additionally, students appreciate academic seminars and workshops, which foster creativity and learning. Overall, feedback on teaching quality, student support, and college facilities was positive, providing essential insights for improving academic programs and creating a supportive learning environment.

Conclusion

The students' feedback 2024-25 stipulates valuable insights into the overall quality and effectiveness of the college's academic and campus environment. Most respondents expressed satisfaction with the curriculum, teaching methods, and support for skill development. Infrastructure, including classrooms, laboratories, and e-resources, was rated positively, along with opportunities for seminars, workshops, and industrial visits. The campus was also appreciated for being clean, safe, and eco-friendly. While there is room for improvement in certain areas, the responses indicate that the college has made consistent efforts to enhance student learning and personal growth. This feedback will be instrumental in guiding future developments and improvements.
